The Globally Green Energy Consortium Announces a Greening & Cleaning AmericaSM Initiative

Tuesday March 8

SINGER ISLAND, FL (BUSINESS WIRE)Globally Green Energy Consortium, (GGEC) the leading green energy and sustainability non-profit organization has launched a major green neighborhood initiative called Greening & Cleaning AmericaSM. The goal of this initiative is to provide funding for green and sustainability programs to communities, schools, colleges, towns and cities throughout the U.S. that are otherwise unable to fund due to their limited resources or budget constraints.

“GGEC will dedicate 100% of its annual surplus for the next ten Years to help the nation’s communities become Green and Sustainable” states Zacharie Mondel,GGEC Chief Executive Officer.

The Greening and Cleaning program is open to communities of any size, school boards, colleges, healthcare facilities, government subsidized housing facilities, community centers, public libraries, and elderly care and assisted living facilities. Included in the program offering are the following:

- Energy Efficient Lighting and Heat/AC Systems
- Automated Energy Management Systems
- Conversion of Transportation Vehicles to Bio-Fuel and Bio-Gas
- Solar Solutions
- Co –Generation Systems
- Water Conservation Solutions
- Energy Efficient Waste Management
- Clean Air Quality Technologies
- Geo- Thermal Heating Systems
- Environmentally Friendly Cleaning Solutions
- Solid Waste Reduction Programs
- Environmental Management Education and Programs

”We are counting on corporate America and all Americans to contribute to the success of this program” said Mr. Mondel “GGEC will match donations to this program dollar for dollar”.

To apply or participate in this program please email info@ggrec.org or call 888-613-5554.

The organization’s website can be found at <http://www.ggrec.org>.

About Globally Green Energy Consortium (GGEC):

GGEC is a non-profit organization registered in the State of Delaware. The Consortium's [mission](#) is to provide businesses and communities with the education and tools to effectively and efficiently implement sustainable and green energy initiatives. A primary objective is to align the offerings of the energy market segment with the needs of the business world to effectively reduce our energy usage and promote renewable energy technologies. GGEC's unique portfolio of [services](#) demonstrates the commitment to serve as a comprehensive source of energy conservation standards, certification and resources to facilitate implementation of sustainability initiatives across market segments. GGEC recognizes the host of information and standards offered by numerous organizations and strive to consolidate, not duplicate current standards. A key message of the Consortium is that the implementation of energy and resource conservation initiatives can be profitable for all businesses.
